THE COFFEE EXPERTS

Dormans Coffee is Kenya's leading roaster and a recognized quality brand. We source our coffees from only the best estates and cooperatives that sit on the fertile and volcanic soils of the East African region, giving rise to coffees that are renowned worldwide.

Our coffees are carefully selected and processed. The Roast Master then skillfully blends and roasts our coffees, accentuating and bringing the coffee to its full potential. All our packs use a special freshness valve that locks in flavour and aroma, protecting the roast from moisture and air.
